● PROJECTS

01/05/2023 – 01/03/2025

Video Production and Digital Storytelling Project

Produced and contributed to a digital video storytelling project focusing on media production, visual storytelling and audience engagement. The project involved planning the content, scripting, filming and editing the video using professional media production techniques.

Responsibilities included coordinating production activities, operating recording equipment, editing video footage and publishing the final content on YouTube for public viewing. The project demonstrated practical skills in journalism, digital media production, storytelling and online content distribution.

01/06/2024 – 15/08/2025

Website Development and Digital Content Management

Designed and developed a basic website as part of a digital media and communication project. The project involved planning the website structure, creating web pages and organizing digital content for online access.

Responsibilities included designing the layout, developing web pages using basic web technologies, uploading and managing media content and ensuring the website was user-friendly and accessible. The project strengthened my skills in digital communication, web content management and online media presentation.

Skills Demonstrated

- Website design and development
- Digital content management
- Basic HTML and web technologies
- User experience and website structure planning
- Online communication and media publishing
